## MIP ENGINE ACCESSORIES

The key to acceleration is control, and that's what MIP Boost products provide! MIP Boost kits smooth acceleration response across the rpm range, by equalizing the pressure difference below the carb. Both kits include Boost bottle, hardware, drill bit and guide bushing, plus attachment accessories. Aluminum Boost Bottles fasten to the vehicle chassis with a bracket. Models available for Traxxas Revo (1603) and Jato (1619). TG-3 on-board temperature gauge (2090) features a large LCD screen, on/off button, and reads temps in both Celsius and Fahrenheit.

## RB INNOVATIONS SUPERCHARGER SYSTEMS

• **Super innovative — super powerful!**

RB Innovations patented **Supercharger Systems** turn heads on and off the track, with tire-shredding performance gains and awesome style. A high-output/low-mass turbo impeller boosts air intake to increase horsepower while minimizing power draw. Your engine will run more consistently from idle to full throttle, and better yet, once tuned, it STAYS tuned! The supercharger comes fully assembled, with everything you need to assemble it onto your engine. **Nitrous Oxide Injection**, for use on any nitro vehicle, allows switch activated ground pounding performance gains unmatched by any other system available.
